Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

Comparable properties statement: The agent reasonably believes that fewer than three comparable properties have sold within the prescribed period, being the six months before the seller signed the sale authority and within two kilometres of the property for sale. The property is on a land holding of approximately 1294 m², which is considerably larger than the typical residential block in the surrounding area. No properties of a similar land size, standard and condition have sold within that time and distance. Sales of standard-sized residential allotments in the area are not considered comparable, as their land size, use and buyer market differ materially from the subject property. The estimated selling price was therefore determined using [the agent's knowledge of the local market, recent sales of larger holdings outside the prescribed area, and the property's improvements and development potential].

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
