Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

Only two comparable properties have been identified due to the subject property's older weatherboard construction, internal condition and overall level of presentation, together with its position on a full-sized allotment. Limited recent sales provide a sufficiently similar combination of dwelling age, condition, construction and land component, resulting in a restricted pool of directly comparable properties.
