Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

The agent reasonably believe that no comparable properties have sold within a 2-kilometre radius of the subject property in the past six months. Properties sold within this area during that period are not considered comparable, as their land size, use and likely buyer market differ materially from those of the subject property.

The estimated selling price has therefore been determined having regard to the agent's knowledge of the local market and recent sales of similar larger holdings outside the prescribed 2-kilometre radius.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
