This section includes an aerial photograph and details of this property.

2.

Summary of interests that **AFFECT this property**

This section helps you to see at a glance interests pertaining to this property.

3.

Summary of interests that **DO NOT AFFECT this property**

This section helps you to see at a glance interests that do not affect this property.

4.

Details of interests that **AFFECT this property**

This section provides details of how an interest specifically relates to this property.

What is a property interest?

A property interest gives rights to a land owner but also, could imply restrictions or impose responsibilities which may impact on their use or enjoyment of the land. Most interests are created by government legislation, policies and guidelines.

Where does property interest information come from?

This service gathers interest information from multiple government bodies and private organisations in Western Australia and consolidates that information into the Property Interest Report. This report will show interests that do and do not affect the property.

Does this report include all interests?

This Property Interest Report only serves as a guide to interests that relate to this property not recorded on the Certificate of Title.

Landgate does not have access to all interest information that affects property in Western Australia. There may be other interests that relate to the property, where that information is currently not available to Landgate. For information on other known interests not in this report, see <https://www.landgate.wa.gov.au/land-and-property/property-ownership/property-interest-report/interest-dictionary>.

Are interests on the Certificate of Title in this report?

No, this report does not include interest information registered on the Certificate of Title. Limitations, Interests, Encumbrances and Notifications may be registered on the Certificate of Title under Second Schedule Endorsements.

It is recommended that a copy of the Certificate of Title is obtained to identify any registered interests and/or information. Visit [landgate.wa.gov.au](https://www.landgate.wa.gov.au) to order a copy of the Certificate of Title.

How do I find out more information?

For further information about interests including information, contact details and relevant legislation on any interests in this report, see <https://www.landgate.wa.gov.au/land-and-property/property-ownership/property-interest-report/interest-dictionary>.

If you have any queries or concerns, please contact the responsible agency of the interest in question, contact details can be found in this report or the interest dictionary.

Notice

This Property Interest Report has been produced by Landgate on behalf of the State of Western Australia. This report has direct access to property interest information held by multiple government bodies and private organisations in Western Australia.

This report is believed to be accurate and current at the time it was generated. However, circumstances and interests may change and can differ from the contents of this report. You must make your own assessment of it and rely on it at your own risk. Please see the full Disclaimer at the end of this report for further details.

Please note: Where risk has been identified to a property within this report and construction has occurred on the land, contact your relevant Local Government Authority for management remediation plans relevant to your property, or for properties being purchased off the plan, contact your developer.

Interests below in alphabetical order specifically affect this property but do not appear on the Certificate of Title. For further information and Legislation details, see <https://www.landgate.wa.gov.au/land-and-property/property-ownership/property-interest-report/interest-dictionary>.

1 in 100 AEP Floodplain Development Control Area

Responsible agency:
Department of Water and Environmental Regulation

Definition of Interest:

1 in 100 Annual Exceedance Probability (AEP) Floodplain Development Control Area delineates land that may be affected by the 1 in 100 AEP flooding and therefore subject to development control.

Affect of Interest:

This property **has been identified** as either being:

- within the 1 in 100 AEPI floodplain; or
- within 300 metres of the floodplain and may be affected by flooding during a 1 in 100 AEP flood.

Please note: Where risk has been identified to a property within this report and construction has occurred on the land, contact your relevant Local Government Authority for management remediation plans relevant to your property, or for properties being purchased off the plan, contact your developer.

1 in 100 AEP Floodplain Areas:

Floodplain Development Strategy Area - Swan River (Upstream of Fremantle to the Causeway and Canning Bridge) - Perth

Coverage - DWER - BMT WBM: Swan and Helena Rivers Flood Study and Floodplain Management Plan - Hydraulic Modelling Final Report; see AEP flood event rasters (T:\S&P\WA&A\WRA\Floodplain Management\FPM\Swan River\EMRC Swan River Review\02_Hydraulics\09b_Hydraulic_Modelling_Data) & Furgo: Armadale to Dunsborough Lidar Survey (2008)

The Floodplain Development Strategy for the area recommends that proposed development that is located:

- outside of the floodway is considered acceptable with respect to major flooding, however, a minimum habitable floor level of 0.50 metre above the adjacent 1 in 100 AEP flood level is generally recommended;
- within the floodway and is considered obstructive to major river flooding is not acceptable.

There is a 1% chance of the 1 in 100 AEP flood level (or greater) occurring in any one year. Larger floods will occur but will be less frequent.

As some flood risk can be mitigated through appropriate building conditions imposed by Local Government, the relevant Local Government can be contacted to ascertain if the flood risk to this property has been mitigated.

The Department of Water and Environmental Regulation (DWER) can be contacted on (08) 6364 7600 or flood@water.wa.gov.au for further site specific flood information or see www.water.wa.gov.au.

ATCO Gas Australia Infrastructure

Definition of Interest:

ATCO Gas Australia is a private company delivering safe, reliable, cost-effective natural gas to West Australians. As a gas distribution company, ATCO Gas builds,

4. Details of interests that **AFFECT** this property

8

Responsible agency:
ATCO Gas Australia

owns and maintains an underground network of pipelines that bring natural gas to more than 700,000 consumers. Along with building and maintaining the network, we also perform the work to connect your homes and businesses to gas and read your meter.

Affect of Interest:

The selected property is **within the vicinity** of ATCO Gas Australia Infrastructure. Land use, building, demolition and access constraints may apply.

Details are available below:

ATCO Gas Australia Infrastructure:

Infrastructure Type - Gas Distribution Network

Depending on the infrastructure type as indicated above, the following advice will apply:

Gas Distribution Network

If the search area is identified as being within the Gas Distribution Network area, a gas connection might exist or be available for the property. See www.atcogas.com.au for more information about the gas connection process or contact ATCO Gas Australia on 13 13 56.

To view ATCO Gas distribution network maps see: www.atcogas.com.au/About-Us/Coverage-Maps.

Note: A gas connection may not always be available for properties within the Gas Distribution Network Area. If the property is not abutting a suitable existing gas distribution main, a pipeline extension may be required. However, buried pipework may still exist on your property. Visit Dial Before You Dig www.1100.com.au to determine the location of gas mains.

High Pressure Gas Pipeline

No work is permitted within 15 metres of a High Pressure pipeline without prior approval from ATCO Gas Australia. Land use, building, demolition and access constraints may apply.

Construction, excavation and other activities may be restricted in this zone. No pavements (including crossovers) are to be constructed over the pipeline without prior consent from ATCO Gas Australia. Various pipeline safety tests may apply.

For more information contact our office on 1300 926 755, or email hpenquiries@atcogas.com.au.

PLEASE NOTE:

This report is not an alternative to Dial Before You Dig. Information about underground cable and pipe networks is available by requesting the utility maps through the Dial Before You Dig web site, www.1100.com.au or contact their call centre on 1100 during business hours, to find out about the location of underground infrastructure prior to commencing any excavation works on a property.

Building and Construction Industry Training Levy

Responsible agency:
Construction Training Fund Board

Definition of Interest:

The Building and Construction Industry Training Levy is used to support training for people working within the building and construction industry, and is payable prior to the commencement of a project or upon application for a building license.

Affect of Interest:

The levy of 0.2% on the contract price is **applied to all** residential, commercial and civil engineering projects undertaken in Western Australia where the total value of construction is over \$20,000. The project owner pays the levy when an application for a building permit is made to the Local Government Authority.

Bush Fire Prone Areas

Responsible agency:
Department of Fire and Emergency Services

Definition of Interest:

A bush fire prone area is an area that is subject to, or likely to be subject to, a bushfire attack. Additional planning and building requirements may apply to developments within areas designated as bush fire prone by the Fire and Emergency Services Commissioner. A further assessment of bushfire risk may also be required under the Planning and Development (Local Planning Schemes), State Planning Policy 3.7 Planning in Bushfire Prone Areas and the Building Code of Australia.

Affect of Interest:

The selected property **is identified** as being fully or partially within a designated bush fire prone area. Additional planning and building requirements may apply, in accordance with Schedule 2 Part 10A of the Planning and Development (Local Planning Schemes) Regulations 2015, State Planning Policy 3.7 Planning in Bushfire Prone Areas and the Building Code of Australia.

4. Details of interests that **AFFECT** this property

10

Details are as follows:

Bush Fire Prone Areas:

Designation - Bush Fire Prone Area (additional planning and building requirements may apply to development on this site)

DesignationDate - 11/12/21 (since 08/12/15)

LGA - PERTH

Comments - This site has been in a designated bush fire prone area for longer than four months. Additional planning and building requirements may apply to development on this site.

A Bushfire Attack Level (BAL) assessment or BAL Contour Map may be required in certain circumstances under Schedule 2 Part 10A of the Planning and Development (Local Planning Schemes) Regulations 2015 if the site has been located in a bush fire prone area for a period of at least four months. Development approval must be obtained in areas with a BAL rating of BAL-40 or BAL-Flame Zone (FZ) before commencing any development, including instances where development approval would not normally be required. A bushfire management plan may also be required.

Bushfire construction requirements set out in GP5.1 and P2.3.4 of the Building Code of Australia apply to certain residential building work in designated bush fire prone areas if the site has been located in a bush fire prone area for a period of at least four months. A further assessment of bushfire risk, such as a BAL assessment, will assist in determining the appropriate level of bushfire resistant construction that should be incorporated into the building. In general a building permit is required before undertaking most new building work.

Certain exemptions and exclusions may apply. Local governments may also have locally specific building requirements.

For specific requirements contact the planning or building section of your local government.

For further information about the Planning and Development (Local Planning Schemes) Regulations 2015, State Planning Policy 3.7 Planning in Bushfire Prone Areas or the associated Guidelines, contact the Department of Planning, Lands and Heritage Bushfire Policy Officer at bushfire@planning.wa.gov.au or on (08) 6551 9000.

For general information regarding the Building Code of Australia and requirements for bush fire prone areas, contact the Building Commission at bcinfo@commerce.wa.gov.au or on 1300 489 099.

If the property has a notification on title stating that the land is within a designated bush fire prone area and the Map of Bush Fire Prone Areas confirms that the land is no longer designated as bush fire prone, then the notification on title may be removed through an N2 form 'Removal or modification of notification under section 70A of the Transfer of Lands Act 1893', available from <https://www.landgate.wa.gov.au/land-and-property/land-transactions-hub/land-transaction-forms/land-titling-and-search-forms>. Note that the relevant local government authority will be required to sign the form prior to its submission to Landgate. Fees apply.

Emergency Services Levy

Responsible agency:
Department of Fire and
Emergency Services

Definition of Interest:

The Emergency Service Levy (ESL) category classification of a property (declared by the Minister for Emergency Services) determines the ESL assessment rate that will be applied to the Gross Rental Value (GRV) of a property to calculate the ESL charge each year (subject to minimum and maximum ESL charge declarations). ESL category classification boundaries are managed by the DFES based upon cadastral information.

Affect of Interest:

The selected property **currently has** the following Emergency Services Levy category classification:

Emergency Service Levy Boundaries:

ESL Category - 1

ESL Boundary - Metropolitan

ESL Calculation - In 2023-24 Category 1 properties pay \$0.013953 x the Gross Rental Value (GRV) subject to a minimum \$98 charge & a maximum charge of \$491 for vacant, residential & farming usages; and \$280,000 for commercial, industrial & miscellaneous usages

The ESL category classifications:

Category 1: Availability of a network of career Fire & Rescue Service stations and the State Emergency Service (SES).

Applies in the Perth metropolitan area.

Category 2: Availability of a career Fire & Rescue station and a volunteer Fire & Rescue Service brigade and the SES.

Applies in the city centres of Albany, Bunbury, Greater-Geraldton, Kalgoorlie-Boulder and Mandurah.

Category 3: Availability of a Volunteer Fire & Rescue Service brigade or bush fire brigade with frequent support from the metropolitan network of career Fire & Rescue Service stations and the SES.

Garden Bore Suitability

Responsible agency:

Department of Water and Environmental Regulation

Definition of Interest:

As part of new water efficiency measures, the Department of Water and Environmental Regulation (DWER) has prepared a Perth groundwater area map showing where additional garden bores are suitable/unsuitable based on available hydrogeological information.

Affect of Interest:

The property is **within** an area where additional garden bores are:

Garden Bore Suitability:

Suitability - Unsuitable

The hydrogeological conditions beneath the property are listed above for the installation of a garden bore.

For more information please contact Water Information at the Department of Water and Environmental Regulation (DWER) on (08) 6364 7600 or waterinfo@water.wa.gov.au, or see www.water.wa.gov.au/urban-water/bores.

Groundwater Salinity

Responsible agency:

Department of Water and Environmental Regulation

Definition of Interest:

The salinity in groundwater varies greatly in Western Australia. This depends on many factors such as geology, topography, climate and coastal seawater intrusion. The Department of Water and Environmental Regulation (DWER) categorises the groundwater salinity according to the salt content and its application for public drinking, irrigation, stock water etc.

Affect of Interest:

The salinity in groundwater in Western Australia varies considerably. This depends on many factors such as geology, topography, climate and coastal seawater intrusion.

Due to the fluid nature of ground conditions it is only possible to report on a indicative reading for the groundwater salinity that exists at this location.

If the groundwater salinity at this location is important then you should contact the closest regional office for advice on this subject.

Groundwater Salinity:

TDS per milligram per litre - 500-1000

Salinity is the measure of total dissolved solids (TDS) or salts in water and is reported as milligrams per litre (mg/L).

The range of salinity of natural water is:

Category	Salinity range
Fresh	0-500 mg/L TDS (suitable for selected agricultural use)
Marginal	500-1000 mg/L TDS (suitable for selected agricultural use)
Brackish	1000-3000 mg/L TDS (used for parkland irrigation)
Saline	3000-35,000 mg/L TDS (industrial use and stock watering up to 10,000mg/L)
Hypersaline	

To verify the groundwater salinity at a particular location contact our office on (08) 6364 7600 or waterinfo@water.wa.gov.au, or see www.water.wa.gov.au/water-topics/groundwater.

Legislation governing the interest:

The Department of Water advises against drilling garden bores in areas underlain by the saltwater interface. There is no legislative basis or implications for this advice.

Iron Staining Risk

Responsible agency:

Department of Water and Environmental Regulation

Definition of Interest:

Groundwater in many areas in Western Australia contains dissolved iron. When the water is exposed to air, the iron is oxidised and forms a rust-coloured coating on walls and paving's.

Affect of Interest:

The property **is in an area** where there is an elevated iron / manganese staining risk according to data available at the time of publication.

Iron Staining Risk:

Risk - Low risk

If you wish to verify whether your proposed garden bore is located in an area of high risk of iron staining, please contact Water Information at the Department of Water and Environmental Regulation (DWER) on (08) 6364 7600 or waterinfo@water.wa.gov.au, or see www.water.wa.gov.au/home.

Legislation governing the interest:

There is no legislation directly related to this Interest.

Land Tax

Responsible agency:

Department of Finance

Definition of Interest:

Land tax is an annual tax based on the ownership and usage of land at midnight on 30 June and is levied in respect of the financial year following that date. Various exemptions or concessions may apply. Until land tax is paid it remains a first charge on the land.

Affect of Interest:

Mosquito-borne Disease Risk

Responsible agency:

Department of Health

Definition of Interest:

Mosquitoes can be a serious nuisance in certain regions of Western Australia and can spread disease-causing viruses such as Ross River, Barmah Forest, Kunjin and Murray Valley encephalitis viruses.

Affect of Interest:

The selected area **is impacted** by the risk of mosquito-borne diseases.

Details are as follows:

Mosquito-borne Disease Risk:

Risk Level - Low or unknown risk

Frequent high risk

The selected area is in a region that frequently experiences problems with nuisance and disease carrying mosquitoes.

Occasional very high risk

The selected area is in a region that experiences severe problems with nuisance and disease carrying mosquitoes in some years, depending on environmental conditions.

Frequent high and occasional very high risk

The selected area is in a region that frequently experiences problems with nuisance and disease carrying mosquitoes, and severe issues are also experienced in some years depending on environmental conditions.

Low or unknown risk

This location has not experienced high rates of mosquito-borne disease in the past. However, the sporadic nature of mosquito-borne disease outbreaks means that this not necessarily a precise indicator of future risk. Furthermore, regions with low or no resident human population may also be classified as low risk even though there may be an undocumented high risk in the area. Finally, significant mosquito nuisance issues may still be experienced, despite a low health risk.

Residents are advised to avoid exposure to mosquitoes and minimise mosquito breeding around the home as appropriate, particularly following extreme weather events such as heavy rainfall, high tides (in coastal areas) or localised flooding that may create abnormally large areas of mosquito breeding habitat.

For information on mosquito control in your local area or to report a mosquito problem please contact your Local Government Environmental Health Officer.

Native Title and Indigenous Land Use Agreements

Responsible agency:

National Native Title
Tribunal

Definition of Interest:

Native title is the recognition in Australian law that some Indigenous people continue to hold rights to lands and waters. An Indigenous Land Use Agreement (ILUA) is an agreement about native title made between one or more native title groups and other people.

Affect of Interest:

Your area of interest is **within** the geographic extent(s) of the following Native Title Applications, Determinations or Indigenous Land Use Agreements (ILUAs):

**IMPORTANT INFORMATION: PLEASE NOTE
WHILE NATIVE TITLE INTERESTS MAY HAVE BEEN IDENTIFIED OVER THE AREA
OF YOUR SEARCH, IT MUST BE NOTED THAT:**

Native Title cannot generally exist over the following types of tenure:

- residential freehold;
- farms held in freehold or;
- pastoral or agricultural leases that grant exclusive possession;
- residential, commercial or community purpose leases, or
- public works like roads, schools or hospitals.

Native Title can generally only exist over the following types of tenure:

- vacant (unallocated) crown land;
- some state forests, national parks and public reserves depending on the effect of state or territory legislation establishing those parks and reserves;
- oceans, seas, reefs, lakes and inland waters;
- some leases, such as non-exclusive pastoral and agricultural leases, depending on the state or territory legislation they were issued under, or
- some land held by or for Aboriginal people or Torres Strait Islanders.

The status of a Native Title Application will determine the rights and restrictions within the boundary of that Application.

Residual Current Device

Responsible agency:

Department of Mines, Industry Regulation and Safety

Definition of Interest:

Residual Current Devices (RCDs) monitor the flow of electricity from the main switchboard and prevent electrocution by cutting the electricity supply if an imbalance in the current is detected. Two RCDs must be fitted before land title is transferred.

Affect of Interest:

The area of inquiry is deemed to have a **high probability** of having less than two RCD fitted because it was either built before the year 2000 when only one RCD is required to be fitted or a property sale occurred before 9 August 2009, when any residential properties that are offered for sale must be fitted with two RCDs.

Indications:

Year Built - 1983

4. Details of interests that **AFFECT** this property

19

Responsible agency:
Department of Mines,
Industry Regulation and
Safety

Since 1997, it has been mandatory to fit mains powered smoke alarms in all newly constructed residential buildings. For existing dwellings, there are laws in Western Australia requiring owners to have mains-powered smoke alarms fitted to all residential properties that are subject to sale, rent or hire, regardless of when they were built.

Affect of Interest:

The selected area of interest **is impacted** by the National Construction Code Series, (Volume Two of the Building Code of Australia). In Western Australia it is unlawful to sell, rent or hire out residential dwellings that do not have mains-powered smoke alarms fitted in accordance with the Building Regulations 2012.

Details are as follows:

Sprinkler Restrictions & Bans

Responsible agency:
Department of Water and
Environmental Regulation

Definition of Interest:

Sprinkler restrictions and/or bans apply throughout Western Australia for scheme water users and domestic garden bores.

Affect of Interest:

The selected property **is identified** as being fully or partially within in an area designated to have sprinkler restrictions.

Details are as follows:

Sprinkler Restrictions:

Region - Perth/Mandurah

Winter Restrictions - Stage 6

Summer Restrictions - Stage 4

Sprinkler restrictions and or bans apply to this area. Due to the drying climate, the State Government introduced water efficiency measures, including the introduction of restrictions on domestic sprinklers.

These restrictions include permanent efficiency measures, an annual winter sprinkler ban that applies to domestic sprinkler use and some non-domestic use, and can also include extra efficiency measures and restrictions from time to time such as extensions of the winter sprinkler ban period or other restrictions.

Restriction stages are detailed in the Water Agencies (Water Use) By-laws 2010. www.legislation.wa.gov.au/legislation/statutes.nsf/main_mrtile_11731_homepage.html

Additional restrictions may also apply to specific locations. Please refer to your water service provider for more information relating to your area.

State Planning Policy 5.4 - Road and Rail Noise

Responsible agency:

Department of Planning,
Lands and Heritage

Definition of Interest:

Land within the vicinity of the States freight and major traffic routes may be exposed to excessive levels of noise which can affect the health and amenity of nearby communities.

Affect of Interest:

The selected land **is within** the trigger distance of freight and or major traffic route and maybe be exposed to excessive noise. Restrictions on development, may apply to this property. You are required to refer to State Planning Policy 5.4 Road and rail noise to determine if the land is affected and to what extent.

SPP5.4

Policy Title - SPP 5.4 Road and Rail Noise

Description - Other significant freight/traffic route

State Planning Policy (SPP) 5.4 - Road and Rail Noise (2019)

<https://www.dplh.wa.gov.au/draftspp5-4>

A key objective of SPP 5.4 is to minimise the adverse impact of road and rail noise on noise-sensitive land-use within the specified trigger distance of transport routes, whilst protecting future freight operations of these transport corridors.

Where any part of the lot is within the specified trigger distance, an assessment against the policy is required to determine the likely level of transport noise and management/ mitigation required. An initial screening assessment will determine if the lot is affected and to what extent. Refer to table 2 of the Guidelines.

Note: the mapped trigger distance includes a margin of error to account for the distance measured from within the carriageway as opposed to the carriageway edge as stipulated in the policy.
