Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

There are considered to be **no directly comparable sales** for the subject property due to its unique configuration. The property comprises a **weatherboard cottage-style residence situated on a full-sized allotment**, however provides a **smaller dwelling and accommodation configuration than other properties sold within the surrounding area**. As a result, surrounding sales are not considered sufficiently similar to provide a reliable direct comparison.
