Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

There are limited directly comparable sales available within this price range. While the property is a dual-lock configuration, it benefits from a generous allotment and superior finishes, having been completed only last year. Most comparable properties within this range are situated on significantly larger allotments or are standalone homes, with differences in land size, configuration and overall finish making direct comparison difficult.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
